

Brookwood Condo Village HOA

Summer Newsletter
July 2023

P.O. Box 983, Blue Springs, MO 64013 | brookwoodhoabs@gmail.com | brookwoodhoabluesprings.org | Message Center: (816) 598-4342

How to contact the HOA:

The most effective method is to send an e-mail to:

brookwoodhoabs@gmail.com.

You may also call the message center at 816.598.4342. Be sure to include your name, address, unit, phone number and the reason you are calling.

Visit our website:

brookwoodhoabluesprings.org

Board of Directors:

Doan Pham, President/Treasurer

Hal Duval, Vice President

Jaime Bossert, Secretary

Dave Haase, Landscaping

Christine McPherson, Recruiting

Board Meetings:

The Board of Directors meets every third Wednesday of the month at Sandy's Restaurant (1255 SW US, MO-7, Blue Springs, MO 64015). Every HOA member is welcome and encouraged to attend. Please contact the HOA to verify date, time and location of our next meeting if you are interested in attending.

Attention Owners with Renters:

Please cover all ordinances with your renters. We have renters not following the covenants and bylaws. These are on our website if you need to read these. Your help is appreciated in this matter.

* * * * * Annual HOA Owners Meeting * * * * *

We will be having our annual HOA Owners meeting this year at Sandy's Resturant, The meeting will be held in the banquet room of the resturant. Food and beverages are available for purchase. Looking forward to meeting all of you! We will also discuss about important issues such as building ordinanace or law insuranace coverage that will help protect your from additonal out-of-pocket expenses that is summarized in this newletter.

The HOA board is proposing of updating our HOA bylaws to allow the board to authorize increasing monthly fees up to 10% annually from our current 5% maximum allowed annually. As we all know, the property value in Jackson County as increase immensely which in turn causes signification increase for studs out insurance policy that the HOA provides for all of our property.

We are struggling to keep up with expenses and inflation to keep all HOA services running. The inflation rate has been more than 5% annually the past recent years. If we are uanble to keep up with costs, our due diligence required by the duties all HOA board members is to cut back services such as building maintence and repairs to keep finances in check. Therefore each homeowner would have to be responsible for their own repairs and landscaping work. We will have a vote of the majority of all homeowners to allow this proposal to be updated in our bylaws, so please attend this annual meeting as this a very serious issue that needs to be addressed.

Date: Thursday, August 10th, 2023

Time: 7:00 P.M.

Location: Sandy's Resturant
(In the same center as Culver's and Side Pockets)
1255 SW US, MO-7
Blue Springs, MO 64015

Homeowner Contact Information

From time to time it is important for the HOA to get into contact with homeowners. While we try our best to contact homeowners, there are some owners that we do not have contact information for. Please send an email to brookwoodhoabs@gmail.com with the unit you own, an email address and phone number. This will help us stay in contact with everyone. If this is an emergency of any sort such as water damage from pipes bursting, or fire, please contact the HOA immediately via the phone number provided above so we can help resolve any issues.

Review the Covenants and Bylaws

The middle of the year is a good time to review the HOA covenants and bylaws. These are available on our website. We are all obligated to abide by these governing documents. As an HOA member, it is your responsibility to be familiar with the Covenants and bylaws. They can be found respectively at brookwoodhoabluesprings.org/info/covenants and brookwoodhoabluesprings.org/info/bylaws.

Please watch your speed:

Please watch your speed through the neighborhood! We have many children playing outside and neighbors walking, jogging or biking on the roads.

Sidewalks and Driveways:

Please keep your sidewalks, patios and decks, and the area right outside your door free from clutter. Do not store trash, equipment, debris or junk in these places. Driveways should not be blocked by any vehicle. If you are renting your home out to someone else, you need to inform them of this. This is a city ordinance.

Storage of Firewood

Do not store firewood in your garage, against your building or divider fences. Doing so can cause termites to infest and damage our buildings. The HOA will consider this negligence on your part and bill you for the cost of the treatment if termites are found due to improper storage of firewood. The cost of one treatment for an entire building is approximately \$1,500. The best place to store firewood is on your patio or deck at the edge furthest away from your back door and raised up in a rack off the patio/deck to isolate it from being in contact with any wall or anything attached to our buildings.

Smoke/CO2 Alarms

As Daylight Savings Time comes around we also have to remember to test and replace the battery on our Smoke/CO2 Alarms. Make sure they are clean, in good working order, and have their batteries replaced regularly. Most alarms typically have a lifespan of about 10 years, replace as necessary. We have had 2 unit fires this past year, but nobody was hurt.

Pet Excrement

Picking up your pet's excrement daily is a continuing problem for our neighborhood. This is a city ordinance. The common area is not personal yard and must be kept free of pet excrement. Take a plastic bag with you and pick it up every time you let your pet out to go to the bathroom. If you have tenants living in your unit, please advise them of this and have them pick up their pet's waste daily. It is embarrassing, disruptive, and a health risk not to do so.

Do Not Park in the Grass / Inoperational Vehicles / Trailer Parking

Our covenants do not allow for vehicles to be parked anywhere in the grass of our common area. This damages our common area lawn. Never park any vehicle in the grass. Never allow anyone who is visiting you to park in the grass. Never allow anyone who is living in your units whether it is a roommate or a tenant to park in the grass.

We pay for our lawn care and maintenance to be done and parking on the grass damages our lawn. We all want to have a nice-looking common area without scars from vehicles parking off to the side of the drives or from someone repeatedly parking half on the street and half in the common area. If damage is done to the common area, you will be billed for any repair the HOA has to make to restore the grass in the common area.

Inoperable vehicles must be stored inside a garage or removed from the premises per City of Blue Springs code. Trailers are prohibited from being parked in driveways and streets for long term parking/storage. Trailers and Dumpers for renovations are not to be left for more than 72 hours on your premises.

Trash Containers

Please do not put your trash out prior to your trash pickup day (you can put the trash out the evening before). Remember per Blue Springs City code (Section 255.030 Collection.), your trash needs to be within 5 feet of your garage door on trash day. Do not put your trash at the curb. Homeowners, please advise your tenants. Trash companies are aware of this law, and they are not to be advising that you bring your trash bin to the street curb. The city has cited several homeowners for not abiding by this law.

Also, our HOA covenants require that trash and garbage containers be removed from public except on days of trash collection. This means owners need to pull their trash cans into their garages six out of seven days. This is found in Article X, Section 10 of the Covenants. This is to improve the overall look and feel of our association. Owners who rent their units to tenants need to notify them of this requirement. Please do your part to improve the look of our neighborhood.

Common Area Etiquette

Please use the common area as if it is yours and as if it were everybody else's, too. Because it is. Article 1, Section 4 of the HOA covenants states the Common Area is, "All the areas of the Properties, except the deeded lots, which are located within the subdivision." In short, all the grassed areas are common to all of us and for our use and enjoyment. Nobody has a personal "yard".

We strive to care for it and make it a pleasant place for our kids to use. It is all of our responsibility to take care of it and not misuse it. It is not for personal storage or parking. It is not your pet's litter box even right outside your door.

Homeowners who have tenants in your units, please advise them of this. If the city issues a citation, not only will the renter be cited but you, as the owner, will be as well. Renters are just as responsible as an owner for the upkeep of our buildings.

Landscaping Maintenance

The shrubs, bushes, and plants around your individual unit are yours to maintain. Please keep them well-groomed and cut back. You must do your own trimming. We have seen a lot of growth from volunteer plants around buildings recently, please keep them trimmed as they cause damage to the building exterior. Also please trim your plants and shrubs at the front of your entry door as being courteous of your next door neighbors as they easily access the common concrete sidewalk to allow them to bring new/old furniture out of their front entry easily and allow accessibility for handicap people at any time as this is a shared common space. Please keep it neat and trimmed back where the concrete sidewalk starts. Another place to keep in consideration is the areas around the HVAC condenser on the sides of the building so they operate optimally. Now is a good time, since it is summer, to get your unit under control.

Overgrowth of bushes and shrubs is unsightly and can cause unwanted critters and varmints to be attracted around our buildings which can lead to holes in the siding and animals getting into attics, walls, and the spaces between floors. Holes in siding will lead to leaks and water damage. All shrubs, grass and plants growing behind fenced off areas and under decks will be your responsibility for maintenance as landscaping services are unable to get access to there.

Also, vines must be kept off of the buildings. Vines will also damage our new paint and weaken our siding leading to holes, leaks, and water damage. please do your part and maintain these things. If you do not maintain your bushes, shrubs, and vines, and they become a hazard to your building, the HOA will have them removed and you will be billed for the cost. The HOA also does not know what sentimental value some of your plants may have and will probably not tend to them with the same care you would.

Please keep all personal property out of the grass areas so that landscaping services can do their job and obstruct them from doing work. Objects such as pet yard chains and cables must not be in the common areas. If obstruct and cause damage to landscaping service's equipment you are fully responsible for all damages.

BBQ Grills and Outdoor Firepits: Potential Fire Hazards

Barbeque grills and outdoor firepits placed close against the wood buildings are potential fire hazards as the heat produced by the equipment dries out the wood siding, decks, fences, railings then make the wood highly combustible and potentially start a dangerous fire. Please be keep BBQ grills and firepits about 2-3 feet away from building when in use and when it cools down. Also be very cautious of charcoal and wood fueled equipment as they are more potential for fire than propane fueled equipment. There has been many several insurance companies that refuse to offer coverage for allowing BBQ grills and firepits in our backyard patios (mostly regarding wood decks) as the HOA board would like to allow homeowners their freedom to do so. Please discuss this with your tenants if you are renting out your units so that they are fully aware. We would like to keep our insurance premiums as low as possible so we all have to do our share of being responsible.

Dryer Vent Cleaning

We have gone around the premises and saw several units have lots of lint clogging up their dryer vent on the exterior. According the 2010/2011 report by National Fire Protection Association, 1 in every 22 fires in homes; the dryer vents were to be blamed. This regular maintenance would also help cut electricity drying your clothes as it helps the dryer breathe better. Please inspect your dryer vents and have them cleaned to prevent from being a fire hazard.

Maintenance Responsibilities

Note on HOA Contractors:

Please be courteous and considerate of HOA contractors that provide regular routine maintenance and scheduled services around your property. If you have renters, please remind them to notify you of issues first instead of confronting with them directly so that they can properly get their work done in a timely manner. Homeowners should contact the HOA Board if they have any questions or concerns with HOA contractors.

The following table can be found on our website at: www.brookwoodhoabluesprings.org/maintenance. It clarifies who is responsible for what; whether something is the Association's responsibility or the individual homeowner.

Association	Home Owner
Roofs	Windows and Jambs
Siding	Doors and Jambs
Paint on Siding	Garage Doors
Gutters	Driveways
Downspouts	Plumbing
Lawn Care (Common Areas)	HVAC
Trees (Common Areas)	Electrical
Snow Removal (3 inches or more at door entry sidewalk and first 3 feet in front of garage AFTER all snow fall has stopped)	Patios and Decks
	Trash Pickup
	Shrubs
	All Utility Issues

Sending in Your Dues

Please mail your dues to our official PO Box. Do not give them to Board members or bring them to a Board member's residence. Also, do not bring them to the HOA bookkeeper's residence. Please follow this out of respect for the Board member's and the bookkeeper's privacy.
